### PROFILE

I'm a web developer with a user-driven mindset. I design and build applications that are engaging and intuitive to navigate. Above all, I believe in delivering value continuously by shipping fast, quality code. On top of my technical skills, I have experience in market research, project management, and client relations.

### SKILLS

### PROFESSIONAL EXPERIENCE

**Full Stack Developer, Fitome**  2021 – present

- Designed, developed, and deployed Fitome with a distributed Agile team of 4 developers using React, Redux, Node.js, and PostgreSQL
- Configured PWA service worker to handle client-side caching and offline access with Google Workbox
- Implemented state management and handled asynchronous operations with Redux
- Designed and built an extensive relational database using PostgreSQL with Sequelize
- Set up MVC-compliant RESTful API optimized to reduce network load

**Full Stack Developer, Cardshare**  2021 – present

- Designed, developed, and deployed Cardshare as solo developer using React, Node.js, and MongoDB
- Implemented search logic using JSON data fetched via Google Books API
- Implemented authentication and authorization with Firebase
- Crafted a seamless and responsive cross-platform compatible UI using BEM CSS
- Set up MVC-compliant RESTful API with Express and MongoDB

**Project Manager & Consultant, The MarkeTech Group**  November 2018 – November 2019

- Managed multinational market research projects for Fortune 500 clients
