PROFILE

I'm a web developer with a user-driven mindset. I design and build robust applications that are engaging and intuitive to navigate. Above all, I believe in delivering value continuously by shipping fast, quality code. On top of my technical skills, I have proven experience in market research, project management, and client relations.

SKILLS

| JavaScript/TypeScript | React | Redux | Express | Koa | Node | PostgreSQL |

| Sequelize | MongoDB | Mongoose | GraphQL | BEM CSS | Git | Mocha | Jest |

PROFESSIONAL EXPERIENCE

Full Stack Developer, Fitome (Codeworks Bootcamp Project) ↗   2021
- Created and deployed Fitome with a distributed Agile team of 4 developers
- Built reusable UI components using React and Hooks with Next.js
- Configured PWA service worker to handle client-side caching and offline access with Google Workbox
- Implemented state management with Redux and handled asynchronous operations with Redux Thunk
- Designed and built an extensive relational database using PostgreSQL
- Set up MVC-compliant REST API with Express optimized to reduce network load

Full Stack Developer, Cardshare (Codeworks Bootcamp Project) ↗   2021
- Built Cardshare from the ground up as solo developer
- Engineered component-based architecture using React and Hooks with Next.js
- Designed search algorithm to filter JSON data fetched via Google Books API
- Implemented authentication and authorization with Firebase
- Crafted a seamless and responsive cross-platform compatible UI using BEM CSS
- Set up MVC-compliant REST API with Node.js, Express, and MongoDB

Project Manager & Consultant, The MarkeTech Group ↗   November 2018 – November 2019
- Managed multinational market research projects for Fortune 500 clients
- Reported directly to the CEO
